

Introduced by Senator Vincent

February 24, 2006

An act to amend Section 81130.3 of the Education Code, relating to community colleges.

LEGISLATIVE COUNSEL'S DIGEST

SB 1652, as introduced, Vincent. Community colleges: facilities.

Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law authorizes the establishment of community college districts under the administration of community college governing boards, and authorizes these districts to provide instruction at community college campuses throughout the state.

Existing law requires the Department of General Services to supervise the design and construction of certain school buildings, including specified community college facilities, to ensure that plans and specifications comply with specified structural safety standards and to ensure that the work of construction has been performed in accordance with the approved plans and specifications, for the protection of life and property. Existing law also requires the department to pass upon and approve or reject all plans for the construction, and in some cases, the alteration, of any school building subject to those provisions, and to inspect the school buildings and work of construction or alteration that in its judgment is necessary or proper for the enforcement of these requirements and the protection of the safety of the students, the instructors, and the public. These requirements are part of the body of law known as the Field Act.

This bill would make a technical, nonsubstantive revision in a provision of the Field Act that relates to community colleges.
